- |   |                                   |
|---|-----------------------------------|
| • <b>HTML,CSS,Java Script</b> (Advance) | • <b>C</b> (Basics)               |
| • <b>Python</b> (Advance)               | • <b>Bootstrap</b> (Advance)      |
| • <b>Django</b> (Advance)               | • <b>Git &amp; Gitup</b> (Basics) |
| • <b>SQL</b> (Medium)                   | • <b>Figma</b> (Advance)          |

## **Courses and Certifications**

### **Internship On Web Development**

Completed a five-day web development internship at NewTech, Trichy, from June 21 to June 25, 2023. Gained hands-on experience in frontend and backend technologies, contributing to real-world projects and enhancing skills.

### **Zero to Hero in Python - GUVI**

Completed the Zero to Hero Python Programming course on GUVI, gaining comprehensive knowledge in Python programming, including syntax, data structures, algorithms, and practical problem-solving skills.

### **UI & UX Designing in Figma - GUVI**

Completed the UI & UX course on Figma in GUVI, acquiring skills in user interface design, user experience principles, and prototyping, enhancing the ability to create intuitive and visually appealing designs.

---

## **Projects**

### **Gift Shop - Django**

Developed a Gift Shop e-commerce project using HTML, CSS, Bootstrap, JavaScript, SQL, and Django. The project includes features like product listing, shopping cart, and user authentication. Focused on creating a responsive, user-friendly interface and a robust backend to handle transactions and manage inventory.

### **Student Dropout Elearning -Django**

Developed a Student Dropout e-learning project using HTML, CSS, Bootstrap, JavaScript, SQL, and Django. The project features interactive modules for tracking and analyzing student dropout rates, with a user-friendly interface and robust backend for data management and reporting. Aimed at improving educational retention strategies through data-driven insights.

### **Grabinfo - Django**

Developed the Grabinfo information-based website using HTML, CSS, Bootstrap, JavaScript, Postgres SQL, and Django. The project offers a comprehensive platform for users to access and interact with various types of information. Features include a responsive design, user-friendly navigation, and a robust backend for managing content and data.

## **AI Chatbot - Python**

Developed an AI chatbot using Python's PYTTTSX3 module, enabling text-to-speech functionality for interactive conversations. The project includes features like voice responses, natural language processing, and user interaction handling, creating an engaging and accessible chatbot experience.

## **Crecab - HTML,CSS,Java script**

Developed the Crecab cab booking platform using HTML, CSS, JavaScript, and Bootstrap. The platform features a responsive design, user-friendly interface, and functionality for booking cabs. Focused on creating an intuitive experience for users to easily request and manage rides, with a sleek and modern design

## **Creapers Service Based Platform - HTML,CSS,Java script**

Developed the Creapers service-based platform using HTML, CSS, JavaScript, and Bootstrap. The platform offers web development and graphic design services, including a custom 7-color bridal makeover poster project. Features a clean, user-friendly design for showcasing services and managing client projects effectively.

## **Weathaer App - HTML,CSS,Java script**

Developed a weather app using HTML, CSS, and JavaScript. The app provides real-time weather updates with a responsive, user-friendly interface. Features include location-based weather forecasts, temperature display, and a sleek design, allowing users to easily access and understand current and forecasted weather conditions.

## **Calculator - HTML,CSS,Java script**

Developed a calculator application using HTML, CSS, JavaScript, and Bootstrap. The app features a user-friendly, responsive design, allowing for basic arithmetic operations. The interface is intuitive and visually appealing, providing a seamless experience for performing calculations with clear, accessible functionality and responsive design elements.
